Professional Summary

IT professional with 20+ years of experience across frontend and backend technologies, pivoting into systems security and cybersecurity operations. Skilled in SIEM monitoring, log analysis, and threat triage using Splunk, alongside hands-on root cause analysis and technical troubleshooting across enterprise platforms. Brings a strong background in web development, IT support, and customer satisfaction, with a focus on delivering secure and reliable results.

Technical Skills

- **Security Operations:** SIEM (Splunk SPL, Dashboards), Alert Triage, Log Analysis, Threat Detection, Incident Response & Containment, Threat Intelligence
- **Application Security & Compliance:** WCAG 2.1 AA, Section 508, ARIA, Screen Reader Optimization (NVDA, JAWS), Responsive Design, Vulnerability Remediation
- **Networking & Security:** TCP/IP, DNS, DHCP, Network Troubleshooting, Firewall Logs, Network Security, Access Control, Authentication
- **Languages & Web:** JavaScript, TypeScript, Python, PHP, HTML5, CSS3, React, Tailwind CSS, Next.js, Node.js, jQuery, Bootstrap, SQL (PostgreSQL, MySQL), XML, JSON
- **Cloud, Systems & Tools:** AWS, Linux/Windows Administration, Git/GitHub, VS Code, ClickUp, Agile/Scrum
- **Professional Skills:** Leadership, Team Collaboration, IT Project Management, Technical Analysis, Documentation

Certifications

CompTIA Security+ | CompTIA | September 2026
Splunk Core Certified User | Splunk | In Progress
Google AI Professional Certificate | Coursera | September 2026
Google Cybersecurity Professional Certificate | Coursera | August 2026
Networking Basics & Network Defense | Cisco | August 2026
Foundations of Cybersecurity | Coursera | August 2026
Project Management Fundamentals | IBM | August 2026

Education

Cybersecurity with AI Tools | Per Scholas | Detroit, MI | Expected Completion, November 2026

- 15-week full-time cybersecurity program covering security operations, networking, threat detection, incident response, and security fundamentals with hands-on use of AI tools.

Intensive Android Bootcamp | Grand Circus | Detroit, MI | October 2014

- Full-time, 12-week training program focused on Android application development, Java programming, Android Studio, user interface design, and mobile app development.

Bachelor of Fine Arts in Interactive Media Design | Illinois Institute of Art | Chicago, IL | 2007

Professional Experience

Asset Health | Troy, MI | May 2015 – Jan 2026

Software Engineer 1 / Web Accessibility Lead | Jan 2022 – Jan 2026

- Led Section 508 and WCAG 2.1 AA accessibility initiatives across Asset Health's Version 8 product suite, implementing ARIA, keyboard navigation, and screen-reader compatibility using NVDA and accessibility testing tools.
- Improved Tier-1 client satisfaction from 65% to 99%; designed and deployed custom frontend and full-stack solutions for 20+ Tier-1 clients (University of Michigan, Advocate Aurora Health, Beacon Health, Independent Bank, Southern Company) using React, JavaScript, jQuery, HTML5, CSS, XML, PostgreSQL, and AWS.
- Built mobile-responsive interfaces using Bootstrap and CSS, improving usability by 35%; developed custom Health Assessments to evaluate and report user wellness metrics.
- Managed annual Tier-1 client system resets, ensuring data integrity, compliance, and uninterrupted service.

Team Lead / Web Developer III | Jan 2020 – Jan 2022

- Executed manual and automated accessibility testing (NVDA, JAWS, WAVE, AxeDevTools), delivering WCAG 2.1 AA and ADA-compliant solutions across Asset Health's v7 framework.
- Modernized legacy course framework using HTML5, CSS3, and jQuery, increasing performance by 40%; developed 12+ global client-facing widgets deployed across hundreds of employer wellness platforms.
- Configured 100+ client challenges for 600+ enterprise clients; conducted database queries and generated reports supporting account managers with client insights and incentive tracking.
- Designed and launched a 14-course curriculum; managed updates and annual end-of-year resets for 40+ client portals.

Web Developer II | May 2015 – Jan 2020

- Maintained and enhanced 100+ client-facing web applications, optimizing accessibility, performance, and release cadence across a shared enterprise framework.
- Built custom frontend solutions using HTML5, CSS3, JavaScript, and React within a multi-tenant platform architecture; modernized legacy Flash/ActionScript content to HTML5/CSS3, improving cross-browser compatibility and accessibility compliance.
- Executed annual end-of-year resets for 20 client wellness portals, maintaining data accuracy, platform stability, and uninterrupted service.

Raytheon | Troy, MI | Jul 2010 – Jun 2014

Flash / Graphic Designer II

- Developed interactive simulations, product demos, and training systems incorporating 2D, 3D, vector, and animated assets for web-based and instructor-led delivery.
- Delivered training solutions for high-profile clients, including the FAA, UK Ministry of Defense, General Motors, NCR, Philips, and DTE Energy.
- Partnered with SMEs and instructional designers to ensure technical accuracy and instructional effectiveness; mentored junior designers on coding best practices, workflows, and visual consistency standards.
