Professional Summary

Experienced IT professional and web developer with 20+ years of experience designing, developing, maintaining, and optimizing enterprise web applications. Strong expertise in HTML5, CSS3, JavaScript, React, TypeScript, PHP, SQL, and responsive web development, with experience modernizing legacy applications and delivering scalable solutions for enterprise clients. Proven track record of leading development initiatives, troubleshooting complex technical issues, improving application performance, and collaborating with cross-functional teams to deliver reliable, user-focused web solutions.

Technical Skills

Security Operations & Intelligence: SIEM (Splunk, SPL, Dashboards), Alert Triage, Log Analysis, Threat Detection, Incident Response & Containment, Root Cause Analysis, Incident Reporting & Documentation, Threat Intelligence
Networking & Infrastructure: TCP/IP, DNS, DHCP, Network Analysis, Firewall Logs, Network Security, Access Control, Authentication, Windows/Linux Administration
Cloud & Security Tools: AWS, Git/GitHub, VS Code, Vulnerability Remediation, Security Documentation & SOPs, ClickUp, Agile/Scrum
Programming & Web Technologies: Python, JavaScript, TypeScript, PHP, SQL (PostgreSQL, MySQL), HTML5/CSS3, React, Node.js, Next.js, jQuery, JSON, XML, REST APIs
Digital Accessibility & Web Standards: WCAG 2.1 AA, Section 508, ARIA, Screen Reader Optimization (NVDA, JAWS)

Certifications

CompTIA Security+ | CompTIA | September 2026
Splunk Core Certified User | Splunk | In Progress
Google AI Professional Certificate | Coursera | September 2026
Google Cybersecurity Professional Certificate | Coursera | August 2026
Network Defense | Cisco | August 2026

Education

Cybersecurity with AI Tools | Per Scholas | Detroit, MI | Expected Completion, November 2026

- 15-week full-time cybersecurity program covering security operations, networking, threat detection, incident response, and security fundamentals with hands-on use of AI tools.

Intensive Android Bootcamp | Grand Circus | Detroit, MI | October 2014

- Full-time, 12-week training program focused on Android application development, Java programming, Android Studio, user interface design, and mobile app development.

Bachelor of Fine Arts in Interactive Media Design | Illinois Institute of Art | Chicago, IL | 2004 - 2007
Michigan State University | East Lansing, MI | 2002 - 2004

Professional Experience

Asset Health | Troy, MI | May 2015 – Jan 2026

Software Engineer 1 / Web Accessibility Lead | Jan 2022 – Jan 2026

- Led Section 508 and WCAG 2.1 AA accessibility initiatives across Asset Health's Version 8 product suite, implementing ARIA, keyboard navigation, and screen-reader compatibility using NVDA and accessibility testing tools.
- Improved Tier-1 client satisfaction from 65% to 99% via the Net Promoter Score. Designed and deployed custom frontend and full-stack solutions for 20+ Tier-1 clients (University of Michigan, Advocate Aurora Health, Beacon Health, Independent Bank, Southern Company) using React, JavaScript, jQuery, HTML5, CSS, XML, PostgreSQL, and AWS.
- Built responsive interfaces using Bootstrap and CSS, improving usability by 35% (Lighthouse / axe DevTools). Developed custom Health Assessments to evaluate and report user wellness metrics.
- Managed annual Tier-1 client system resets, ensuring data integrity, access control compliance, and uninterrupted service across multi-tenant enterprise environments.

Team Lead / Web Developer III | Jan 2020 – Jan 2022

- Executed manual and automated accessibility testing (NVDA, JAWS, WAVE, axe DevTools), delivering WCAG 2.1 AA and ADA-compliant solutions across Asset Health's v7 framework.
- Modernized legacy course framework using HTML5, CSS3, and jQuery, increasing performance by 40%; developed 12+ global client-facing widgets deployed across hundreds of employer wellness platforms.
- Maintained 100+ client configurations across 600+ enterprise accounts; executed SQL database queries and analyzed logs to audit system metrics, verify data accuracy, and investigate platform anomalies.
- Designed and launched a 14-course curriculum; managed updates and annual end-of-year resets for 40+ client portals.

Web Developer II | May 2015 – Jan 2020

- Maintained and enhanced 100+ client-facing web applications, optimizing accessibility, performance, and release cadence across a shared enterprise framework.
- Built custom frontend solutions using HTML5, CSS3, JavaScript, and React within a multi-tenant platform architecture; modernized legacy Flash/ActionScript content to HTML5/CSS3, improving cross-browser compatibility and accessibility compliance.
- Executed annual end-of-year resets for 20 client wellness portals, maintaining data accuracy, platform stability, and uninterrupted service.

Raytheon | Troy, MI | Jul 2010 – Jun 2014

Flash / Graphic Designer II

- Developed interactive simulations, product demos, and training systems incorporating 2D, 3D, vector, and animated assets for web-based and instructor-led delivery.
- Delivered training solutions for high-profile clients, including the FAA, UK Ministry of Defense, General Motors, NCR, Philips, and DTE Energy.
- Partnered with SMEs and instructional designers to ensure technical accuracy and instructional effectiveness; mentored junior designers on coding best practices, workflows, and visual consistency standards.
